‘Android Developer Role’

To secure a challenging and rewarding position as Android Developer with an established organization that can utilize my skills, experience, practice my knowledge and past experiences.

Profile

Expert in Enterprise and Mobile application development over 4.7+ years. Skilled at mentoring team members, developing architecture, conceptual flow, design, and requirements. Demonstrated ability to understand and improve legacy code and to become proficient at new technologies quickly.

Experience

Sr.Developer, Reliance jio Infocomm LTD. ,Navi Mumbai,India- May 2016 to till

Sr.Developer, Tailored Solution, Ahmedabad, India - 2014-dec to 2016 mar

Developer, IndiaNIC InfoTech Ltd, Ahmedabad, India – 2011-Dec to 2014-may

I have conceptualized, designed, developed and deployed various types of applications for android based mobile phones. I have created handset specific user interface (UI) for mobile phones and tablets and also researched on application acceptance and solicited feedback from users to make the new and existing applications more user friendly.
