Summary

As a Java Developer, I specialize in web application development, particularly in Java, Spring, and Liferay 7.4. I prioritize collaboration and continual learning to deliver top-notch software solutions.

Experience

AIMDek Technologies PVT. LTD, Jr. Software Engineer

Ahmedabad, Gujarat

Feb 2023 - Present

- Developed and maintained backend applications using java, Spring Boot, and other related technologies to meet project requirements.
- Implemented RESTful APIs and web services using Spring Boot, facilitating seamless communication between frontend and backend systems.
- Acquired hands-on experience with Spring Boot and Liferay, a popular Java framework for creating stand-alone, production-grade applications.
- Participated in code reviews, ensuring adherence to coding standards, best practices, and performance optimization.
- Developed and maintained microservices using Spring Boot, ensuring high performance and responsiveness to front-end requests.

Projects

Stocks and Exchanges(Spring Boot)

- Contributed significantly to the development of a complex web application resembling a stock market platform. Utilized microservice architecture for efficient system organization.
- Used blockchain technology to enhance security and transparency in stock transfer and exchange transactions, ensuring seamless execution and reliability.
- Designed and developed REST-based microservices using Spring Boot, with a focus on scalability and efficiency. Utilized Docker to containerize the services, ensuring portability and ease of deployment.
- Used Spring Boot Actuator to monitor and manage the application in all environments.

Housing Finance (Liferay 7.4)

- Collaborated with a diverse team to develop and implement website upgrades for Housing Finance, leading to a 10-20% increase in user engagement and a 10% decrease in bounce rate.
- We have implemented the REST-Template technology to all our forms for data retrieval processes.
- Improved the allocation logic for user data input fields, resulting in a 10-15% increase in leads.
- Designed and deployed new web content features to enhance user experience, including interactive calculators and personalized financial tools.

Technologies

Skills: Java, Spring Boot, Liferay 7.4, SQL, Git, HTML, CSS, Sonar

Software: Visual Studio, MYSQL Workbench , MongoDB Compass Eclipse, IntelliJ idea

Education

Bachelor of Engineering , V.V.P Engineering College

July. 2019 to May 2023

- Major in Information Technology with CGPA: 9.32/10
